# AWARDS

At a time when brass was still considered a wonder metal, Butterfly Kitchen appliances was formed to revolutionize the country with the golden opportunity called stainless steel. Butterfly Kitchen appliances was the first to introduce stainless steel pressure cookers and stainless steel copper bottom pressure cookers in India. It was also the first company to introduce Stainless steel vacuum flask with 100% indigenous technology. Butterfly has been a pioneer in providing innovative and high quality kitchen appliances in both electrical and non- electrical category for more than four decades to its consumers across the country.

**e4m BEST BRAND-SOUTH**

Butterfly has been awarded as one of the best brands in South India by e4m in the kitchen appliances category for truly innovative products and helping the consumer with high quality appliances.
